## REPORT.

---

HEADQUARTERS OF THE POLICE DEPARTMENT,  
OFFICE OF THE POLICE COMMISSIONER, 154 BERKELEY STREET,  
BOSTON, December 1, 1950.

To HIS EXCELLENCY PAUL A. DEVER,  
*Governor of the Commonwealth.*

YOUR EXCELLENCY:

In compliance with the provisions of Chapter 291, Acts of 1906, as amended, I have the honor to submit a report of the work of the Boston Police Department for the year ending November 30, 1950.

The Force is manned by the full quota authorized by law, and the degree of protection offered to the public reflected favorably in our crime index during 1950, as indicated in the statistical compilation appended herewith.

Despite the efforts of a special detail of the Boston Police Department, which constantly checks on the protection of large sums of money in depositories throughout the city, a robbery of tremendous proportions was perpetrated with machine-like dispatch in a public garage, part of which was converted into a depository for huge sums of money. Down through the years it has been the custom of banks and other financial institutions to notify the Police Department when moving or changing locations of large depositories for money and valuables. A simple notification in this instance would have alerted the police, and our inspection force would have undoubtedly brought to light the inadequate protection afforded at this depository. The coordinated efforts of the Federal Bureau of Investigation, the Massachusetts State Police and the Boston Police Department will continue unceasingly until this robbery is solved.

A "Detective Bureau" was established on November 6, 1950, in accordance with the provisions of Chapter 735, Acts of 1950. The "Five-Day Work Week" law, accepted by vote of the people of this community on November 7, 1950, will become effective on January 1, 1951, and arrangements are

being made to provide the maximum protection of life and property with the limited number of men allowed in our new quota. A "Voluntary Unpaid Auxiliary Police Force" was established on September 18, 1950, in accordance with the provisions of Chapter 639, Acts of 1950, and the Department is now augmented by five hundred members of this civil defense organization.

Although the total number of vehicles registered in the Commonwealth reached an all-time high figure during the current year, our efforts in the regulation of traffic have been reasonably successful. I am of the opinion that the many large projects now being constructed under your Highway Program will bring substantial relief to our traffic problem.

Work relating to the prevention of juvenile delinquency received the wholehearted support of the Department Crime Prevention Bureau in cooperation with the many social agencies, probation officers and school attendance officers. It is gratifying to be able to report that there has been a very substantial decrease in the number of cases affecting juveniles in this city during the year.

The morale of the Department is excellent, and it is a pleasure to express my appreciation to the personnel for their loyalty and efficiency in carrying out their assignments.

To Your Excellency I extend my sincere thanks for the support you have given the Department during the past year.

Respectfully submitted,

THOMAS F. SULLIVAN,  
*Police Commissioner.*

## PRESENTATION OF MEDALS.

The Walter Scott Medal for Valor for 1950 and Department Medals of Honor, as recommended by a Police Board of Merit, were awarded at the annual ball of the Boston Police Relief Association, held at the Boston Garden, December 4, 1950, as follows:

**THE WALTER SCOTT MEDAL FOR VALOR AND A DEPARTMENT MEDAL OF HONOR TO PATROLMAN BENJAMIN H. WHITE OF DIVISION 4.**

Patrolman Benjamin H. White of Division 4 is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for distinguished and meritorious service performed on March 16, 1950.

Patrolman White, while on patrol duty that evening, heard several revolver shots and in his investigation, while proceeding through an alley, was set upon by a man who pressed a gun against his side and threatened to kill him. The officer grappled with the man and after a struggle succeeded in wresting the revolver from him and placed him under arrest. Patrolman White, by his prompt action without regard for his own safety, showed exceptional courage in pursuing and apprehending this dangerous criminal who is now serving time in a penal institution.

**DEPARTMENT MEDALS OF HONOR.**

Patrolman James W. Moar of Division 17 is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on September 28, 1950.

Patrolman Moar responded to a radio message that a boy had been struck by a train in West Roxbury and upon arrival at the scene removed his uniform tie and with his baton improvised a tourniquet, placing it above the knee of the left leg which had been partly severed. The boy was removed to the hospital where his leg was amputated. The prompt action of Patrolman Moar in rendering first aid undoubtedly saved the boy's life.

Patrolmen Patrick J. Spillane and Edward L. Donahue of Division 18 each are awarded a Department Medal of Honor for distinguished and meritorious service performed on February 9, 1950.

While cruising, these officers received a message to be on the lookout for an automobile containing several young men who had kidnapped a young woman near her home in Dedham. Shortly after, an auto came to a sudden stop as the police car approached and the three occupants fled in different directions. The officers gave chase and captured two of them who were identified by the victim. These men and three others later arrested had been involved in a series of criminal attacks on women.

## WORK OF THE DEPARTMENT.

## ARRESTS.

The total number of arrests, counting each arrest as that of a separate person, was 90,069, as against 94,079 for 1949.

There were 15,472 arrests on warrants and 34,652 without warrants; 39,945 were summoned by the courts.

The number of males arrested was 81,263; of females, 8,806; of foreigners, 3,798; of delinquents, 2,277; of minors, 6,236; of non-residents, 29,334.

The number of persons punished by fines was 34,891, and the assessment of fines imposed by the courts amounted to \$188,793.

The total number of days' attendance at court by officers was 35,713, and the witness fees earned amounted to \$13,332.05.

There were 27,292 persons arrested for drunkenness, an average of 75 per day, as against 27,671 or an average of 76 per day in 1949.

One hundred fifty-one persons were committed to the State Prison; 2,033 to the House of Correction; 59 to the Women's Prison; 96 to the Reformatory Prison; and 2,610 to other institutions; and the total years of imprisonment were 1,697 (910 sentences were indefinite).

The value of property taken from prisoners and lodgers was \$145,776.14.

The value of property stolen in the city amounted to \$3,248,009.92 and the value recovered amounted to \$1,735,411.40.

The Commissioner has attempted to find out what percentage of arrests in other cities is of non-residents. This percentage is so small in other cities that statistics are not kept of this class of arrests; therefore, it should be borne in mind in making comparison of Boston with other cities, either of the cost of policing or of criminal statistics, that 33 per cent of the arrests in Boston is of non-residents, whereas other cities have but a negligible percentage of arrests of non-residents.

For the twelve months ending November 30, 1950, as compared with the same period ending with November 30, 1949,

a brief comparison of the number of arrests for major offenses may be of interest and is submitted herewith:

OFFENSES.	YEAR ENDING NOVEMBER 30, 1949.	YEAR ENDING NOVEMBER 30, 1950.

## DETECTIVE BUREAU.

A Detective Bureau was established in the Boston Police Department on November 6, 1950, in accordance with the provisions of Chapter 735, Acts of 1950.

## CHAPTER 735 — ACTS OF 1950.

## THE COMMONWEALTH OF MASSACHUSETTS.

*In the Year One Thousand Nine Hundred and Fifty.*

AN ACT CREATING A DETECTIVE BUREAU IN THE POLICE DEPARTMENT OF THE CITY OF BOSTON AND ESTABLISHING THE COMPENSATION OF THE MEMBERS OF SUCH BUREAU.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

SECTION 1. A detective bureau is hereby established in the police department of the city of Boston, with the following grades: Lieutenant-detective, sergeant-detective, first-grade detective, second-grade detective and third-grade detective. As soon as may be after this act becomes fully effective, the police officers, including superior officers, serving in the bureau of criminal investigation in the police department of said city, and the officers assigned to and carrying on criminal investigation work in the divisions of said department, shall be classified as detectives and become members of said bureau. The police commissioner for the city of Boston shall have the right to assign any of said detectives to any division or department of said police department and they shall come under the supervision of the superior officers of the division or department to which they have been assigned. Police officers so classified with the grade of lieutenant shall thereby qualify for the grade of lieutenant-detective, those with the grade of sergeant shall thereby qualify for the grade of sergeant-detective. Patrolmen special officers, so called, so classified who have performed criminal investigation work for ten years or more shall thereby qualify for rating as first-grade detective. Patrolmen who have performed such work for five years or more, but less than ten years, shall thereby qualify for second-grade detective, and patrolmen who have performed such

work for less than five years shall thereby qualify for third-grade detective. The police commissioner may transfer to the grade of third-grade detective the regular patrolmen who have performed extraordinary and outstanding service in line of duty if he is of the opinion that such promotion is desirable and in the best interests of the service; provided, that in making such transfers, the requirements of chapter thirty-one of the General Laws need not be complied with; and provided, further, that such transfers shall be reported to the division of civil service as provided in section eighteen of said chapter thirty-one. For the purpose of promotions under section twenty of said chapter thirty-one, to the grades of captain, lieutenant and sergeant respectively, the grades of lieutenant and lieutenant-detective shall be deemed to be in the next lower grade to that of captain; the grades of sergeant and sergeant-detective shall be deemed to be in the next lower grade to that of lieutenant; and the first-grade detective, second-grade detective, third-grade detective and patrolman shall be deemed to be in the next lower grade to that of sergeant.

SECT. 2. The members of the detective bureau shall receive the following compensation: A lieutenant-detective shall receive an annual compensation of three hundred dollars in excess of the salary received by a regular lieutenant. A sergeant-detective shall receive an annual compensation of three hundred dollars in excess of salary received by a regular sergeant. A first-grade detective shall receive an annual compensation of five hundred dollars in excess of the maximum salary received by a regular patrolman. A second-grade detective shall receive an annual compensation of four hundred dollars in excess of the maximum salary received by a regular patrolman. A third-grade detective shall receive an annual compensation of three hundred dollars in excess of the maximum salary received by a regular patrolman. All members hereafter transferred to said bureau shall serve a probationary period of six months as such detectives, during which period the commissioner may transfer them from said bureau to other duties in the department, provided such duties are in accordance with their civil service rating, and a person so transferred shall not have any right of appeal as provided in chapter thirty-one of the General Laws. A member hereafter transferred to said bureau after he shall have served such a probationary period, or any officer of said department classified

as a detective under section one of this act at the time of passage hereof, may be transferred from said bureau to the rank held by him immediately prior to the date of his transfer to the detective bureau by order of the commissioner or if he has obtained subsequently as a result of civil service examinations a higher rank to said rank but he shall have a right of appeal to the trial board appointed under the provisions of chapter two hundred and ninety-one of the acts of nineteen hundred and six, which shall have the power to hear and determine such appeal and the provisions of said chapter thirty-one shall in no way be applicable to said hearing and determination made thereunder. The decision of such trial board shall be final.

## BUREAU OF CRIMINAL INVESTIGATION.

The Bureau of Criminal Investigation is composed of several units, namely, Automobile, Ballistics, Chemical Laboratory, Homicide, Lost and Stolen Property, Identification, Missing Persons.

In addition, special squads are assigned to cover the following phases of police work and investigation: banking, express thieves, general investigation, holdups, hotels, narcotics, pawnbrokers, junk shops, second-hand article dealers, pick-pockets, radicals, shoplifters, night motor patrol.

Members of this Bureau investigate felonies committed within the jurisdiction of the City of Boston. They also handle cases of fugitives from justice and conduct hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, they cooperate in every possible way with outside police departments in investigation of crime and prosecution of criminals.

### AUTOMOBILE UNIT.

This unit investigates all reports of automobiles stolen and is in daily communication with police authorities of the United States and Canada. Many investigations are made in cooperation with the Federal Bureau of Investigation, Post Office Department and immigration authorities of the United States.

The automobile unit index contains records of cars stolen in Boston, cars stolen in other places, cars reported purchased and sold, cars for which owners are wanted, cars used by missing persons and cars whose operators are wanted for various offenses. Many arrests are made by officers of the department and the automobile unit through information obtained from this index.

All applications for Used Car Dealers' Licenses are investigated by officers of this unit. Frequent examinations are made to ascertain if used car dealers are conforming to the conditions of their licenses.

Using mechanical appliances and chemicals, members of this unit during the year identified a number of automobiles

which were recovered or found abandoned on police divisions, restoring them to their owners, and have assisted in solving many crimes by means of their positive identifications.

### LOST AND STOLEN PROPERTY UNIT.

A description of all articles reported lost, stolen or found in this city is filed in this unit. Many cities and towns throughout the United States forward lists of property stolen in such places. All pawnbrokers and second-hand dealers submit daily reports of all articles pawned or purchased. A comparison of the description of articles reported lost or stolen and those articles which are pawned or purchased by dealers resulted in the recovery of thousands of dollars' worth of stolen property and the arrest of many thieves.

Pawnshops and second-hand shops are inspected daily, for the purposes of identifying property which may have been stolen.

### HOMICIDE UNIT.

Officers of this unit investigate all homicide cases and interrogate persons involved in or who have knowledge of crimes of murder, manslaughter, abortion and other violent crimes. They prepare, supervise and present evidence at inquests.

### BALLISTICS UNIT.

Personnel consists of members of the Bureau of Criminal Investigation expert in ballistics, explosives and munitions. All evidence found at the scene of crime where firearms or explosives were used is examined. Suspected weapons are catalogued, fired for test and comparison purposes, and spent bullets and cartridge cases from these weapons are filed. Cases involving ballistic evidence are prepared and presented in the various courts.

All department firearms, accessories pertaining to the same, and tear gas equipment have been inspected and serviced.

All firearms held as evidence pending disposition by the courts are recorded.

Stolen firearms are traced and whenever possible are returned to the rightful owners. A file is kept on stolen firearms and checks are made against the file at the Lost and Stolen Property Unit and at the files of the Massachusetts Department of Public Safety.

When firearms, property of the United States, are found used in crime or recovered otherwise, such property is returned to the proper military or naval authorities after cases are disposed of by the courts.

This unit works in cooperation with other police departments, federal agencies, military and naval intelligence units.

### EMERGENCY EQUIPMENT ON ALL DIVISIONS.

All police divisions and several units have on hand a supply of emergency equipment.

Harbor Police Division is equipped with line-throwing guns and rifles.

Periodic inspections are made and equipment replaced whenever necessary.

### TRAFFIC DIVISION.

The Traffic Division is responsible for the control of vehicular traffic in that area of the city lying within the boundaries of Divisions 1, 2, 3, 4 and 16, including the post at Commonwealth Avenue and Boston University Bridge. It enforces, concurrently with the foregoing divisions, statutes, rules and regulations pertaining to traffic within this area. Parking violation notices for the entire Department are processed through the Traffic Division.

The Traffic Division also provides a program of safety education through the medium of the M-1 Safety Squad.

### ACTIVITIES.

The total number of vehicles registered in the Commonwealth as of October 31, 1950, reached an all-time high figure, 1,212,826, an increase of 102,881 registrations over the preceding year, imposing a greater traffic burden upon Boston than ever experienced previously.

During the current year, we have experienced a great amount of road construction, both new and replacement. The first span of the proposed aerial highway system has been completed in the form of the new Mystic Bridge. The James J. Storrow Memorial Highway on the Boston side of the Charles River is rapidly nearing completion. Black-top surfaces have been applied to many of the streets in the downtown area.

Many changes were made in our traffic pattern to accommodate conditions caused by construction activity. Notably among them are the one-way regulations of Tremont Street and Beacon Street, rotary traffic around the Boston Public Garden, as well as temporary changes in Albany Street, Dover Street, Broadway and Harrison Avenue.

This year marked the passing of authority for the issuance of parade permits to the Boston Traffic Commission. The usual schedule of parades was conducted, with minor route changes made necessary by construction activities. The Boston School Cadets parade was confined to the Back Bay district, and a marked improvement in traffic conditions resulted.

Necessary traffic details were provided for the many parades, military convoys, conventions and other special events which

were held in this city during 1950. The following notables were among the many guests of our city who were provided escort service: Ali Kahn of Parkistan and the Begum, Vice President and Mrs. Barclay, General George C. Marshall, Admiral Chester Nimitz, the Secretary of the Navy, the Secretary of the Argentine Republic, the Ambassadors of Ireland, Holland and Italy, the High Commissioner for Germany, Senator John Foster Dulles, the Commanders of the Legion of Valor and the Disabled American Veterans, the National President of the Federation of Women's Clubs, evangelists Billy Graham and Canon Green, actors Jack Benny and Eddie Cantor, actress Ann Sheridan and television's Ed Sullivan.

#### SAFETY EDUCATION.

The Traffic Division continued to provide a program of safety education for the children of our city through the medium of the M-1 Safety Squad. It is the duty of the officers of this squad to visit all the schools of the city, public, private and parochial, where they provide instructions and demonstrations on the subject of safety. During school vacation periods, their program is continued at the various playgrounds, community centers and public beaches.

The officers of this squad appear with various school groups on weekly radio programs presented through the facilities of Station WMEX. They have also appeared on televised programs in conjunction with members of the staff of the Registrar of Motor Vehicles.

Many out-of-town school groups, from places as far distant as Barrington, Illinois, have been conducted on tours of historic interest by officers of the Safety Squad. Adult groups of both social and industrial nature have been addressed by the officers, whose services, in this field, are in constant demand.

The M-1 car, with its public address system, has proved valuable in handling shopping crowds during the holiday seasons. It has also been used to good advantage in the conduct of parades.

#### PARKING.

On January 1, 1950, a new system for the processing of parking notices was inaugurated whereby the Traffic Division took over the issuing of such notices for the entire Department. Typing and mailing of the notices was let out to a

mailing house. Under this system much duplication of work has been eliminated, resulting in the clearance of a greater volume of notices while requiring the services of fewer officers.

For the eleven-month period ending November 30, 1950, 320,751 notices of parking violations were issued by the Traffic Division for the entire Department, an increase of more than 50 per cent over the previous high figure. Because of a change in the law governing parking violations, which now extends the non-criminal feature to all offences rather than to the first three offences as in former years, a reduction in court prosecutions was noted. Another change, imposing a fine of \$1 for the first offence in the downtown area in place of the previous warning, contributed to an increase in revenue from this source, which, in the eleven-month period ending November 30, 1950, amounted to \$312,973 in the Central Municipal jurisdiction as compared with \$134,472 collected therein for the entire year of 1949.

#### PARKING METERS.

An additional 3,000 parking meters are currently being installed in the Back Bay and downtown sections of the city, which will bring the total number of parking meters in service to 8,000. Of the 189,186 notices of parking violations reported by officers of the Traffic Division, 44,141 were for infractions of parking meter regulations.

#### TRAFFIC PROBLEMS.

Traffic problems are increasing daily under the weight of an ever increasing traffic load which, in 1950, has been estimated as 20 per cent greater than at any previous time in our history.

Major highway improvements designed to alleviate intown congestion are beginning to take shape. The plan, however, is a long-term one, and its beneficial effects will not be felt for a few years to come.

One cage-type garage has been placed in operation during the past year, and others are contemplated. Off-street parking facilities have not kept pace with requirements, and much improvement can be shown in this direction.

Trucking concerns continue to operate without proper terminal facilities, thereby imposing an additional traffic burden upon our overtaxed streets. Considerable relief

would be afforded by the construction of off-street truck terminals and by the imposition of restrictions on the use and occupancy of streets by trailers.

Two of our larger market concerns have announced their intention to construct modern plants in the Southampton Street district and to relocate at this point. Others are expected to follow this example. It is a favorable sign because the real solution of our traffic problem in the market district lies in the decentralization or the relocation of the market facilities.

A traffic problem of considerable proportions is caused by the operation of the drawbridges which span the Fort Point Channel. Shipping to and from channel abutters requires the closing of three and sometimes four such bridges to traffic. These operations seal off all roadways to the south of the city proper and bring traffic to a standstill. The solution of this problem is to fill in the channel and thus not only give us an uninterrupted traffic flow, but permit the widening of Dorchester Avenue and provide additional off-street parking areas.

While progress has been shown in correcting the faults of previous parade routes, the basic problem still remains with us. That is the scheduling of parades during such hours as business houses are open to the public, particularly on Columbus Day and Armistice Day. It is an impossibility to exercise proper control of the normal traffic of a business day while our streets are occupied for parade purposes.

Illegal parking continues to be our number one problem. The lack of satisfactory results obtained, despite the record prosecution for this type of violation during the past year, indicates the inadequacy of the present parking law.

#### HORSES.

On November 30, 1949, there were 16 saddle horses in the service, attached to Division 16.

During the year one horse was purchased and one horse was retired to the Massachusetts S.P.C.A. Rest Farm.

At the present time there are 16 horses in service.

## BUREAU OF OPERATIONS.

## DUTIES.

The Bureau of Operations has control of all communications equipment, consisting of telephone, teletype, radio and telegraph, and through its facilities has directed movement of radio cars, police boats and ambulances.

## ACCOMPLISHMENTS.

During the period from December 1, 1949, to November 30, 1950, personnel of the Bureau managed transmission, reception and handling of:

245,351 outgoing telephone messages and 4,241 toll calls made by the Department through our switchboard.

Approximately 391,816 emergency telephone messages received and handled at the "Turret" through either "DE 8-1212" or the department intercommunicating system.

Approximately 414,897 telephone messages received through our switchboard, many of which were transferred to the "Turret" for handling.

147,607 teletype messages and 753 telegrams were processed; 7,872 of these teletype messages related to missing persons.

7,184 automobiles were reported lost or stolen; 1,734 were reported stolen in Boston.

359,388 radio messages were sent, including "Sound Scriber" recording of same.

Four (4) main radio transmitters (Station KCA-860, 2 at Police Headquarters and 2 at Suffolk County Court House); 111 automobiles; 27 combination Patrol-Wagon Ambulances and 4 Boat transmitters and receivers; 36 wired broadcast amplifiers and 8 pickup receivers were maintained and kept in repair by members of this Unit.

A radio shop is attached to the Department Automobile Maintenance Shop, where a 24-hour daily service is maintained.

### CRIME PREVENTION BUREAU.

The Crime Prevention Bureau handles techniques of law enforcement in treatment of juveniles and prevention of juvenile delinquency.

Emphasis has been placed on the value of policewomen in both of these fields.

### DUTIES IN GENERAL.

1. Develop a program of crime prevention, intended to eliminate factors that induce criminal tendencies among children.
2. In this program, enlist aid of the public, interested agencies and divisions and units of this department.
3. Teach good citizenship, develop a proper mental attitude of citizens toward law-enforcement agencies, and especially educate the public and the police in the problem of crime prevention and suppression.
4. Determine persons and places which in any way contribute to delinquency of children; investigating and taking necessary action to correct such conditions.
5. Supervise and inspect places of public amusement.
6. Promote welfare of children, the sick, the aged and the needy; locating missing persons.
7. Investigate cases concerning boys and girls and assist in the investigation of cases where women are involved.
